# welcome

We are excited to present a selection of robust, age-advanced coming 2-year-old virgin bulls. We take great pride in this offering and are confident that you will be impressed by the quality and variety of multi-breed bulls available for you today. Our program is dedicated to providing superior genetics to the commercial cattleman. We aim to produce cattle that perform not only for us, but for cow-calf operators, feedlots, packers, and consumers alike. This is achieved through the use of proven carcass genetics from across the country, with a focus on combining low birth weights with high weaning and yearling weights, while also maintaining excellent grass-converting, maternal traits.

Our goal is to be a trusted source of reliable, high-quality multi-breed bulls for regions such as Arkansas, Kansas, Georgia, Texas, Oklahoma, New Mexico, Wyoming, Arizona, Tennessee, Alabama, Louisiana, Mississippi and Florida, both in the fall and spring. Over time, we have gradually expanded our cow herd and Cooperator Program, increasing our annual bull numbers to 1,200.

**We are proud to be the 7th largest bull supplier in the United States.**

Building long-term relationships is important to us, and we are deeply grateful for the friendships and connections we've made. We look forward to seeing you on sale day and discussing how we can contribute to your success.

## The Story Behind The Sutphin Bull Guarantee

Our first bull sale was thirty-two years ago—eight head, averaging \$1,200. At the time, I thought I was rich.

One of those early customers was Lowell Johnston of La Junta, Colorado. Before our second annual sale, Lowell stopped by to look at bulls. Through the grapevine, I had heard that a bull he purchased the year before might have been injured. Wanting to do the right thing, I quietly slipped into the Winter Livestock office and arranged a credit for him—without saying a word.

Later that day, Lowell found out about the credit and came to me, clearly unsettled.

“No sir, young man,” he said. “I don’t deserve that. The bull wasn’t hurt. He stayed in the corral for about sixty days, went back out with the herd, and he’s been just fine.”

The next day, Lowell returned with his brother and his son, Kent Johnston. Together, the Johnston family purchased several bulls—and in many ways, made that second sale a success.

That moment stuck with me.

In memory of Lowell Johnston, the Sutphin Bull Guarantee was created. His honesty, integrity, and the lesson he taught me about taking care of people—and doing what’s right—continue to guide how we do business today.

## Our Details

### Return

Bulls must be returned to our McClave, CO bull pavilion after contacting us with pictures or get verified to qualify for insurance.

### Coverage Details

Bulls over \$5,000 purchase price are a no questions asked guarantee for a 120-day breeding season. The replacement covers everything but foot rot (you must doctor your foot rot).

### Coverage Window

Insurance is paid through September 1, 2026. Additional insurance - 100% through Sept. 1 then 10% of the bull through February 1, 2027.

### Contact

You must contact Angela Sutphin (719-691-9061) with pictures and/or vet verified to qualify for insurance. Bull credit minus salvage value will be granted for next year’s sale.

## Docility Rating

	<u>Rating</u>

	<u>Rating</u>
Guaranteed Heifer Bull <u>Sleep Easy</u>	5
Heifer Bull meeting most criteria	4
Moderate BW w/ Moderate EPDs	3
Heavier BW w/ Growth EPDs	2
Recommended Cow Bull Only	1

## Bull Selection:

In order to assist you in selecting the bull that is right for your program we have designated a rating for each of our bulls. By rating our bulls, it gives you a better idea of what you are getting. If it’s a heifer bull you are looking for, we want to get you a true heifer bull. If you’re looking for a cow bull that will put pounds on your herd, we can get you that! When selecting each rating we take into consideration, several factors. We look at the individual bull; the genetics behind him; his EPDs given by the Breed Association; and his actual weights. To the right is an explanation of the ratings along with a docility rating:

# In the beginning...

Sutphin Cattle Company started simply, with an early interest in cattle and a willingness to pay attention to what was working. Before there was a name or a defined program, there was curiosity, hard work, and a desire to build cattle that made sense for real ranch conditions.

Throughout his childhood, John saved the money he earned showing pigs and cattle through 4-H, always with the intention of putting it back into livestock. At the age of only 8, along with the same determination shared by his sister, Monette, age 9, they took their savings, a small bank loan which they paid off in one year and the support of their mother and father - each purchased eight registered Limousin cattle imported from France, laying the foundation for what would become S&S Land and Cattle.

At the same time, John was paying close attention to the cattle industry around him. His father and neighboring ranchers were moving away from large-framed Simmental and Charolais bulls that were producing 140-pound calves and toward Limousin cattle, known for calving ease, efficiency, and lighter 90-pound birth weights. It was a practical shift driven by real-world results, and it left a strong impression.

Market demand reinforced what he was seeing at home. Throughout the 1980s, Limousin usage was growing rapidly across commercial operations. In La Junta, Colorado, two weeks each November were designated specifically for Limousin calves, with an estimated 6,000 to 8,000 head moving through the market each week. It was clear, measurable demand — not theory or speculation.

Those original cattle were red, horned French Limousin — powerful, demanding, and not the easiest cattle to manage. But they represented exactly what John believed in from the start: muscle, efficiency, and the opportunity to build a breeding program grounded in performance rather than popularity.

As time passed and lives evolved, John acquired his sister's portion of the herd, continuing the operation forward as S&S Land and Cattle, Inc., doing business as Sutphin Cattle Company. The responsibility increased, but the direction never changed.

From the beginning, the focus was clear and consistent: raise cattle that work for commercial producers.

As the herd matured and market demand shifted, Angus influence was introduced deliberately to meet what buyers were asking for while continuing to improve the cattle. Horns were phased out gradually through disciplined, patient breeding while preserving muscle, fertility, and longevity. By around the year 2000, horned cattle were no longer intentionally part of the program. That transition took nearly 18 years and was guided by both market signals and long-term goals.

Over time, the operation expanded into a multi-breed program incorporating Limousin, Angus, Charolais, and SimAngus genetics. Each was selected for specific strengths, but the standards remained the same: sound structure, maternal ability, efficiency, longevity, and cattle built to perform under real ranch conditions.

Today, many of the strongest cows in the herd still trace back to those original Limousin descendants. Their influence remains evident in the consistency, durability, and performance of the cattle, reinforcing the value of building a program with intention and patience.

Great cattle are not created overnight. They are built carefully, generation by generation, with purpose and conviction.

## SIM ANGUS

### Sim Angus Bulls

Sutphin Cattle has built a Sim Angus bull, approx. 1/4 to 3/8 blood, that calves moderate & is not too big for our country.

These bulls will influence a Black Angus herds weaning weight by 40 lbs. plus.

These bulls have a wide top, huge hindquarter & the calves will push the scales down at weaning time and will top the market.

*John Sutphin*

# *John Sutphin III*

MORE THAN THE FOUNDER -  
HE WAS THE HEARTBEAT...

His commitment to cattle that work, genetics that last, and relationships built on trust shaped Sutphin Cattle Company for decades. John took great pride in the cattle offered here today, and his standards continue to guide every decision made moving forward.

This sale stands as a reflection of his life's work, and we are honored to carry his legacy forward.
